

## Company Presentation

# Who we are

STEULA began operations in 1958 and its factory is in its own building with 1,600 m<sup>2</sup> of built area. To manufacture its products, STEULA has modern and automated production lines and employees able to ensure the quality of their own production through advanced control techniques and calibration and measurement instruments at all stages of manufacture.

STEULA knows that the modern consumer is not only concerned about buying the cheapest products, but acquiring products which are durable and functional solutions for your needs.

That's why STEULA bets on a product line that has been gaining consumers preference from the whole america primarily for its quality and reliability.

**IMPROVING ALWAYS** is our proposal !

# Quality Policy

We want to ensure the satisfaction of our customers through the sale of goods and services that match their expectations with regard to function , price, on-time delivery, durability, quality and protecting the environment.

The phrase **"IMPROVING ALWAYS"** which accompanies our logo translates faithfully and summarizes our concept of quality. The fundamental principles of our policy for quality are customer focus and continuous improvement. Thus, it is our responsibility and commitment to meet the legal requirements, prevent failures and seek continuous improvement of each process, improve relationships between customers, employees and suppliers, promote safety and respect for the environment, increase productivity, optimizing the performance of products and seeking their suitability for use.

On June 26, 2015 STEULA reached a staggering 3000 days without accidents at work: a feat among companies in the metal - mechanic sector, an achievement that it does day to day, with company investment, with the commitment of each employee and focusing on safety in every activity performed.

# Responsive service and support to customers and distributors

STEULA keeps finished goods at warehouse that ensures super fast delivery . strategic partnerships with carriers allow us to deliver CIF to almost all Brazilian states.

At our website [WWW.STEULA.COM.BR](http://WWW.STEULA.COM.BR) and at [Youtube.com/steulaequipamentos](http://Youtube.com/steulaequipamentos) our customers have access to updated technical and commercial informations available 24 hours a day.

At our website we have **STEULA - ONLINE SERVICE**, a restricted area where customers can transmit their orders, track deliveries, download user's manuals, price lists, catalogues and technical informations tables as faster as INTERNET allows .

**Our staff** is trained and qualified to provide the necessary support to our customers via phone, e-mail, Skype or Facebook .

We maintain an active and frequent communication with our distributors disseminating news, launches, changes / improvements of the products and providing guidance on the use and applications of our products.

STEULA has more than 2,000 active distributors and has representatives throughout Brazil to meet and support these distributors. **By visiting our website our brazilian customers can meet STEULA representative in their area.**
